

# IMTIYAZ AKIWAT

Professional summary

I am Imtiyaz Akiwat, an aspiring Full Stack Web Developer with a strong passion for creating engaging websites and web applications. As a fresher, I am eager to leverage my skills in HTML5, CSS3, JavaScript, React.js, and Node.js to contribute effectively to projects. I am excited about the opportunity to learn and grow in the dynamic field of web development. My goal is to bring creativity and innovation to every project, building a foundation for a successful career in the industry.

I am highly skilled in both front-end and back-end development and I have a good understanding of SEO best practices and the ability to develop cross-platform compatible solutions. I also possess excellent problem solving skills and have a strong attention to detail. My goal is to continue learning new technologies and remain up to date with industry trends in order to provide the best solutions for my clients.

PROJECTS

## MarigoldLoadTracker

February 2023 - September 2023

The purpose of this project is to help AVT Natural Products' marigold branch company streamline the process of calculating farmers' production when loading marigold flowers onto trucks.[link to project](#)

## Suhel-Roadlines-Website

2023 - 2023

I have created a landing website for Suhel Roadlines, a transport service based in Athani, using the React framework.[link to the website](#)

## Website-Builder

2023 - 2023

I have developed a user-friendly tool that facilitates the process of website creation. This tool allows users to input a description of their desired website and leverages the power of OpenAI GPT-3.5 to automatically generate HTML, CSS, and Bootstrap code, resulting in a fully functional website template.[link to the project](#)

## Personal Portfolio Website

2022 - 2023

I have created a personal portfolio website to showcase my journey as a Frontend Web Developer. Visitors can explore my diverse projects and coding expertise.[link to personal portfolio website](#)
